# LAWTECH ORIGINS

**ALWAYS FIRST.....ALWAYS EVOLVING**

It was way back in 2006 when Chilli IQ first developed the Lawtech Summit as we saw the need for a platform for the evolving legal technology market in Australia. It was new, fresh and created a buzz amongst the growing legal technology crowd but furthermore it created a community. It brought together legal IT Managers and everyone involved with the technology of a law firm in one place - for the first time in Australia.

Fast forward to now and the legal technology community has grown and thrived.

Through the last 15 years the Lawtech Summit has seen the evolution of legal technology managers go from just the IT guys to becoming an important and essential part of the business strategy of law firms today.

We are proud to be an integral part of this ever evolving community and continue to offer a stage for thought leaders and ground breakers of the legal technology field.

# 2022 THEME

## LAWTECH NOW, NEXT AND BEYOND

### WHAT IS THE 'NEW LAWYER' POST-PANDEMIC ?

### HOW HAS IT POSITIVELY IMPACTED THE LEGAL ENVIRONMENT ?

### WHERE DO WE GO FROM HERE?

### THE LAWTECH SUMMIT IS THE TRAILBLAZER EVENT FOR LEGAL TECHNOLOGY IN AUSTRALIA AND NZ, DELIVERING INNOVATIVE CONFERENCES SINCE 2006.

This year we are holding our 15th event at the Luna Park | Sydney we look forward to being able to come together over two days of learning and networking, as I am sure we all are.

The 'new' new normal has struck and there is no denying that the global pandemic has created a necessary change, even for those reluctant to adapt to change, including the legal industry. Clients, in-house counsel and law firms are rapidly adapting at scale to new ways of working and the reality is that the practice of law will

never be the same on the other side of this crisis. The blockers or resisters of change have been silenced in only a matter of weeks. It is now a great time to reflect on the acceleration of recovery and the importance of not slipping back to old habits.

The new agile workforce has emerged and has had to 'unlearn' old strategies and adapt to a savvier new version.

The Lawtech Summit in 2022 will be celebrating its fifteenth year and it is with reverent honour that we present a conference programme that incorporates the transformation revolution that technology has brought to the legal sector. It will focus on the critical themes that have arisen from the new way of working post-pandemic and delve into emergent areas of significance.

The 2022 Lawtech theme focuses on the now, next and beyond of legal technology and will include topics that have surfaced during this peculiar year. Areas such as adaption to change; the importance of sustainability; wellbeing; technology deployment cycle and user experience; scenario planning and risk management. It will also include the importance of cybersecurity and the new challenges faced by a flexible workplace. The new technologies that are changing the way law firms are working with clients is another important topic and how the courts are also transforming to keep up with the change. The programme will be focusing on the positive implications of the pandemic and how we have become champions of embracing change to our best abilities - even though it was forced upon us.

# WHAT YOU WILL LEARN

This year's programme will be focusing on moving forward post-pandemic and the lessons learnt. The following themes will be discussed at the event:

- Dealing with change: How we maintain the openness to change and not slip back to old habits.
- Technology deployment cycle: environment and UX T  
Technology implementation speed has been much higher in this current year and acceptance of new technology has been a main feature.
- Cyber Security and the new challenges: what has changed and what still needs to be addressed
- Legal Tech Updates: new rules - new tools
- InHouse Counsel and legal technology: a look at how inhouse counsel are working with less and creating more. sharing the experience.
- Physical space: What will the future look like in terms of physical space and how will technology help develop this.
- Remote Court Hearings and Online ADR Post Pandemic
- The Future of AI & Work: Artificial intelligence offers considerable promise - the robots can perhaps take the sweat, and do all the dirty, dull and difficult jobs.. but:
  - How do we ensure the future is bright?
  - How long do we even have before machines are as capable as us?
  - When they are, how can we be sure they'll behave ethically and to our benefit?
- New Technologies & new tools: the necessities for this current reality
- Sustainability: where there has been positive environmental impact what can we learn from this and how can we apply it
- Scenario planning: Many organisations and lawfirms would have pandemic in their list of potential risks but how many sufficiently mitigated the risk?
- Health & Wellbeing - Mental health in the legal sector is and remains a concerning area but Covid-19 has been a great leveller as we are all
- The newly adaptive Lawyer and the new agile workforce:
  - responding to the new changes

# WHO SHOULD ATTEND

The Annual Lawtech Summit is the networking and educational forum for many of the Top & Mid Tier Law firm's CIO's from across Australia & NZ. As other events may come and go leaving a mere blot on the horizon and a distant memory, the Chilli IQ Lawtech Summit and Awards' has consistently, over the last 15 years earned its title as the leading legal technology event of Australia.

Through progressive presentations and expert speakers, every year is a sturdy step towards pushing the benchmark to exceed.

The Lawtech Awards will further continue to promote and reward those who excelled in legal IT in Australia and the 2022 event therefore promises to maintain our own set standard.

This event has been exclusively produced to address the function and capacity of the following position from the legal profession - law firms, legal counsel and the corporate sector:

- CIO's , COO's , CISO's
- IT Directors
- CFO's & Finance Directors
- Head of Knowledge Management
- Legal Partners - IT Area, Litigation
- Risk Managers
- Head of IT Security
- All those who have a role in the technology side of a law firm or legal department
